#### Chicago's Centennial Celebration.

The Chidago & North-Western R'y announces that much interest is being evidenced throughout the west in Chicago's celebration of the 100th anniversary of that city's settlement in 1803. The celebration will take place from September 26th to October 1st next, with a program that includes a series of commemorative events that possess many special teatures of int-

erest. A great naval display will be a part of the program, together with regattas and the spectacular arrival in canoes, by way of the lake, of 400 Indians, the descendents of tribes formerly occupying this site, who will establish a village around a repro-

lake front. Athletic contests, parades, great fire works displays, patriotic meetings and religious services, a grand chorus, military maneuvers by government troops, and on the concludday a reception to the President of the United States and other disting-

uished guests, all contribute to a most

duction of old Fort Dearborn, on the

elaborate program. Every energy is being employed to make the occasion typical of that spir it that has made Chicago one of the greatest cities in the world.

By the way, Youngster from down the river, in looking over old scraps of paper we found your compliment to Weary Willie and Porcupine. We think that Weary Willie is already married, Porcupine ought to be and Youngter would like to be. But never mind, next year is leap year, and if he don't propose to you you can propose to him, and Weary Willie and Porcupine will know you're in the swim.

What's the matter with our presi dent of the Old Settlers Reunion? Seems like it's about time there was some preparation made for the same and there should be a meeting called pretty soon to set a date for the same and to appoint committies for the different sports and pleasures of the day. We believe August is the proper month for the Re-union or early September.

WATERFALLS IN JAPAN

They Are Almost Countless and Are Used as Shrines.

The waterfalls of Japan are almos untless. There is one at every turn, and where there was not one in the re liming the Japs have made one, for t is their passion. Every little garder has a fall or two, and it would not be o...sidered a garden at all without it There are many very beautiful ones in various parts of the country, and they are all of them shrines visited by thousands of pilgrims every year. They do not pray to them as to a statue of Buddha, but they first pass up a little paper prayer on a convenient rock and then sit down in rapt attention and saze at the falling water for hours, tal: ing an occasional cup of tea at a little teahouse which always stands close at

The Japs are great at making pil grimages anyway. When a man has reached the age of forty-five, he is sup posed to have raised a family which will in the future take care of him About the first thing he does on retir ing is to start on a series of pilgrimages. Sometimes he joins a band of fellow pilgrims, or, if comparatively wealthy. he sometimes takes his wife and a minor child and makes the pilgrimages by himself. These pilgrim bands can always be seen moving about the country. They carry little banners with the name of their city and district marked on them, and when they have received "Plow deep while sluggards sleep good entertainment at a teahouse or hotel they hang one of their banners up in a conspicuous place as a testimonial. Often a band of pilgrims will travel from one end of the country to the other, visiting every temple and waterfall in the land.

#### APHORISMS.

Liberality consists rather in giving seasonably than much.-Cicero. Labor is the divine law of our exist

ence; repose is desertion and suicide .-Unbecoming forwardness oftener pro ceeds from Ignorance than impudence.

Kindness is a language the dumb can speak and the deaf can hear and understand .- Bovee. Every one complains of the badness of

his memory, but nobody of his judgment.-Rochefoucauld. He who has no inclination to learn more will be very apt to think that he knows enough.-Powell.

It is not what he has or even what he does which expresses the worth of a man, but what he is.-Amiel. Most people would succeed in small

things if they were not troubled with great ambitions.-Longfellow. Justice is the insurance we have on our lives and property, and obedience is

#### the premium we pay for it.-Penn. Cats of Ancient Egypt.

By some persons the popularity of the cat in Egypt has been attributed to the fact that the animal was valuable in ridding the palaces of rats and mice and also in hunting fowls. There are several paintings in the British museum, executed by ancient Egyptian artists, representing Egyptian sportsmen in boats on the river Nile. accompanied by large cats, sitting on their haunches in the stern. Other pictures show the cats swimming with birds in their mouths after the manner of retriever dogs. These pictures have greatly perplexed modern naturalists because the cut of today has a strong aversion to water, and it is difficult to reconcile such different traits even aft er the lause of thousands of years.

Our Paper Money.

The man who is ever ready to bet on anything said suddenly to a group of members of the club, "I'll bet a case of catchup to a bottle of curry powder that there is 't a man in the party that can name the denominations of United States paper money." All lost, and ali were abashed when he mentioned \$1. \$2, \$5, \$10, \$20, \$50, \$100, \$500, \$1,000. \$5,000 and \$10,000. Most men are un accustomed to handling notes above \$100, and few ever saw one of \$10,000. -New York Press.

## Food Alters Animals.

It is surprising how circumstances alter animals. The savages of the Amacon region feed the common green par rot for generations with the fat of certain tish s, thus causing it to become beautifully variegated with red and yellow feathers. In like manner the natives of the Malay archipelago, by a process of feeding, change the talkative lory into the gorgeous king lory.

The Manager Realizes It. "There is something elevating in mu-

sic," said the artist. "Yes," answered the manager. "Music certainly has the effect of stimulating loft; ideals as to salary."-Washington Star.

It was to combat and expose quacks and fools that laughter was invented .-
